Ontology Learning and Population from Text: Algorithms, Evaluation and Applications

Philipp Cimiano

Ontology Learning and Population from Text: Algorithms, Evaluation and Applications Philipp Cimiano

Ontology Learning and Population from Text In the last decade, ontologies have received much attention within computer science and related disciplines, most often as the semantic web. Ontology Learning and Population from Text: Algorithms, Evaluation and Applications discusses ontologies for the semantic web, as well as knowledge management, information retrieval, text clustering and classification, as well as natural language processing. ...
